FUNCTIONAL

**50 BEDS MOST MODERN & HI-TECH MOTHER CHILD AND ALL SPECIALITIES HOSPITAL**

**24 Hours Open**    **DAY & NIGHT / 365 DAYS A YEAR**    **50 THOUSAND PLUS PATIENTS SERVED SO FAR**

**HOSPITAL STANDARD SERVICES POLICY**

Any body who walks in is to be treated, whether he got money or no money. For Poor, Needy patients and their families, all medical services are free or highly subsidized. The Middle Income Group, the Services are Subsidized on case to case basis. Well to do Families has to pay their bill in full, for the services they get.

**BIN QUTAB FOUNDATION - SOLUTION PROVIDER**

BIN QUTAB FOUNDATION - A CSR project of Bin Qutab Group, a civil society, not for profit organization, took the challenge. With the support of Corporate and SME Philanthropists and individual donors, established this state of the art World Class Hospital at Bhubhar, a most remote area of district Chakwal. Eighty Percent Chakwal population in Rural Area. As per 1998 census Chakwal has highest number of disabled in Pakistan. No efforts had been done at any level to know the reasons and the solution for it.

**PAKISTAN RURAL HEALTH CARE EMERGENCY**

Pakistan Rural versus Urban population ratio is 70/30. Ninety five percent Hospitals are in cities and only 5 percent ill equipped, mismanaged and inefficient are in Rural Area, Private Hospital are few and very expensive. The hard hit are the poor patients who cannot afford it. Traveling to cities is another Big Cost which is not affordable and a big financial burden for the Pooers. The successive Governments had done imbalance development between Rural and Urban. Resultantly the worst hits are the Poorest of the poor with no hopes of relief in the near future.

**DISTRICT CHAKWAL RURAL AREA**

District Chakwal Rural Areas not an exception. Within 70 to 80 Kilometre radius combine rural areas of District Chakwal, Jehlum, Attock and Gujjar Khan, there is no Standard Hospital whether Public or Private Sector. Rural Patients Ultimate Fate is Deing way to City Hospital.
